

ANANTA ROMADHAN

JUNIOR FULL STACK DEVELOPER

087750704842 | ananta076238@gmail.com | <https://anantar07.github.io/Myportfolio/> |

OBJECTIVE

To obtain a position as a software developer where I can apply my expertise in web and IoT development to build modern, responsive, and reliable applications, while continuously improving my technical skills and contributing to impactful digital solutions.

SKILLS & ABILITIES

Full Stack Developer skilled in web (HTML, CSS, JavaScript, PHP, Laravel, MySQL, React.js), mobile (Dart/Flutter, Kotlin), and IoT development using microcontrollers and sensor-based systems. Experienced with Git, REST APIs, real-time data processing, and basic UI/UX principles. Fast learner, team-oriented, and focused on delivering efficient and reliable solutions.

EXPERIENCE

Nov 2024 – Feb 2025

IoT Web Based Air Quality Monitoring Project

Full Stack IoT & Web Developer — Trenggalek, East Java

Developing an air quality monitoring system using IoT technology integrated with a web application. This system is capable of capturing air sensor data in real-time and displaying graphs and air quality status accurately.

Feb 2024 – Maret 2024

System Analysis & Use Case Design

Functional Analyst — Malang, East Java

Conducted requirement analysis for the Malang Mbois application by creating Use Case Diagrams, Use Case Scenarios, and mapping business process flows. Collaborated with the development team to ensure all system requirements were properly documented and correctly implemented.

Agus 2023 – Des 2023

Independent Study Program – Web Development

Web Developer — Malang, East Java

Learned and implemented web development using HTML, CSS, JavaScript, PHP, and modern frameworks, while designing and developing web application features based on system requirements. Created Use Case Diagrams, Use Case Scenarios, and business process flows, and collaborated with the development team to ensure all system requirements were properly documented and successfully implemented.

EDUCATION

Oct 2020 – Jun 2025
Malang, East Java

University Of Muhammadiyah Malang

Bachelor's Degree in Informatics — GPA 3,83

- The focus of studies is on software development, Internet of Things (IoT), and web development.
- Proficient in programming languages including Dart (Flutter), Kotlin HTML, CSS, JavaScript, React, Backend with PHP, Firebase and Arduino.

- Skilled in designing user journeys and design efforts to improve overall user satisfaction.
- Actively involved in development tasks, focusing on refining system capabilities and delivering user-centered solutions.
